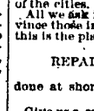
Manhood: How Lost, How Restored.



JUST published, a new edition of Dr. Culverwell's Celebrated Essay on the *radical cure* (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.
☞ Price, in a sealed envelope, only 6 cents.
The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and *radically*.
This Lecture should be in the hands of every youth and every man in the land.

BRINKERHOFF'S

Corn Sheller, Separator and Cleaner.

THE undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.
Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.
The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. N. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.
From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:
"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleans, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."
The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

STATE CENTRAL COMMITTEE.

CLEARFIELD, PA., Dec. 5, 1867.

A meeting of the Democratic State Central Committee will be held at the Democratic Club Rooms, Harrisburg, on Tuesday, the 7th of January, 1868, at 7½ o'clock, P. M. A full attendance is specially desired.

WM. A. WALLACE, Chairman.

CONGRESS.

In the House, yesterday week, Mr. Ross, of Illinois, offered a resolution reciting that the military expenses of the government exceeded the whole expense of the government in earlier and better times, and directing the committee on military affairs to inquire into the expediency of reducing the army to a peace establishment, and thus reduce the taxation of the country.

This was agreed to, but the vote whereby it passed was subsequently laid on the table.

Mr. Baker, of Illinois, finally offered a resolution declaring that it was, on all accounts, expedient that the military establishment should be as small as is compatible with the needs of the country, and directing the military committee to inquire into the expediency of reducing the army. Unanimously adopted.

On motion of Mr. Washburne, of Indiana, the committee on military affairs was directed to inquire into the expediency of extending the bounty act of 1866 to widows of soldiers who have died since its passage.

On motion of Mr. Ingersoll, of Illinois, the committee of ways and means was directed to inquire into the expediency of reporting a bill to provide for the total destruction of all high wines and whiskey which may be seized for frauds upon the internal revenue.

On motion of the same gentleman, the ways and means committee was also directed to inquire into the expediency of exempting from taxation all incomes not exceeding $2,500 per annum.

Both Houses have voted to take a holiday recess from this day until the 6th of January.

PRESIDENTIAL CAMPAIGN.—A quiet but interesting contest is already going on in Washington among the respective friends of Chase and Grant for the Chicago nomination. There have been several informal meetings of the supporters of Chase, and judging from their conversation, they are determined to make a hard fight, both in and out of Congress, between now and next spring, for the nomination of their candidate. Grant's friends, like nearly everybody else, being totally in the dark concerning his *real* political sentiments, are almost as reticent as the General himself. Mr. Chase now professes to favor the admission of the Southern States, as soon as they become thoroughly Africanized, while the friends of General Grant are rather cautious in expressing any opinion at present, evidently preparing to wait a while, lest their colored brethren of the South should prove a little *tricky*, and sell them out, if admitted before the Presidential nomination shall have been made.

PENNSYLVANIA AND MASSACHUSETTS.—Mr. Getz, member of Congress from Berks county, this State, recently excited some amusement in the House, by offering the following resolution:

Whereas it is reported that the cities of Boston and Pittsburg have recently elected Democratic mayors; and whereas this is an indication on the part of the people of these cities of a spirit of disloyalty; therefore,

Resolved, That the select committee on reconstruction be directed to inquire whether the States in which these cities are located have republican forms of government, and whether they do not need reconstruction.

The resolution was objected to, and it went over. The Radicals don't like to hear anything about the late elections.

THE latest report about Grant's political status professes to come from his brother-in-law, Gen. Dent. He says Grant does not want to be either the Republican or Democratic nominee. That he would like to be elected by the people. That he does not wish to decide upon political questions until they come up, and that he will not consent to be tied up by party cords. The once great Republican party must be very willing to take council of its fears, if it could consent to take such a man for its candidate.

PROPOSED REMOVAL OF GEN. POPE.—It is currently reported that the President will shortly relieve General Pope of the command of the Third Military District, and assign General George G. Meade to that position. General Meade is now in Washington, and has recently had several interviews with the President. Pope's administration of affairs has given great dissatisfaction, and his removal seems to be determined upon by the President. Good!

THE VOTE on the Impeachment question indicates that Congress is at length coming to its senses—that it has cut loose from the dictation of Thaddeus Stevens, and will no longer recognize him as its master. The result of the October and November elections has had a salutary effect, and after the elections of next year we predict it will shove *Sambo* overboard too. The ballot-box is yet a power for good in the land, when wielded by white men.

WITHIN the year the Democracy have gained the control of four of the principal cities of the Northern States—Boston, Baltimore, Philadelphia and Pittsburg. With New York city added these constitute the five largest and most influential cities of the eastern section of the Union. The fact is significant.

THE result of the Wisconsin election, which has just been officially declared, shows a Republican majority of 4,764. Last year the Republican majority was 23,909. A gain of 19,145 in a single year shows how strongly the tide is running against Radicalism in the Northwest.

THE Radical officials of the Freedmen's Bureau and the negroes have raised such a howl about the proposed discontinuance of the Bureau at the expiration of its term, that the Rump Reds have concluded to fasten it upon the country as a permanent institution, placing the control of it in each State mainly in the hands of the Radical "governors" who are to be "elected" by the darkies under the negro constitutions.

THE Philadelphia *Evening Bulletin* suggests the name of Dan Rice, as the Democratic nominee for the Presidency. One joker in a century is about as much as the American people desire. Another such joker, and there is no telling where we will drift to.

ON the second inst., Hon George Sharswood took his seat as a Judge of the Supreme Court of Pennsylvania.

ALABAMA CONSTITUTION.

The character of the Constitution recently made for Alabama by a mixed Convention of ignorant blacks and mean whites may be inferred from the protest entered against it by fifteen of its more conservative members. They assume that the action of the Convention is in opposition to the sentiment of the Northern people, as expressed in the recent elections, and that the Constitution adopted violates the conditions of the Republican party in Alabama, by transcending the requirements of the reconstruction acts, and adding features of proscription and disfranchisement not authorized by these measures. They believe that the Northern people will not permit the power of their government to be directed to the abasement and degradation of the white people of the South; that they will not sentence the white race of the South to be the servants of their former slaves, even as punishment for rebellion. They argue that the civil liberty of the Northern people will be endangered by the continued exercise of a pro-consular rule, maintained by force over an impoverished and ruined people. The South admits the thoroughness of the conquest, but trusts to the magnanimity of the conqueror, and appeals now to the tribunal of last resort—the people. The political power of the blacks is coveted under the proposed system of suffrage, by political adventurers having no interest in common with the Southern people, as a weapon of offense to be wielded for the accomplishment of their selfish schemes of personal aggrandizement, and that race will really surrender itself to the arts and intrigues of designing persons, who flatter their vanity, and encourage them in a jealous hate of the white people of the State.

The colored delegates in the Convention moved as subserviently at the beck of their Radical advisers as ever the slaves did at the command of their masters.

The amendment to the bill of rights introduced by Mr. Keffer, that common carriers should make no distinction between citizens of the State, aroused considerable opposition, and threatening to produce serious discord in the Convention, was withdraw by its authors and advocates; but the colored delegates, the protesting members are informed, obliged the Radical majority to promise them that the Legislature should and would carry it into effect. The protest alludes to the fact that the Convention refused to provide separate schools for whites and blacks, and simply provided in the Constitution for the establishment of one or more schools in each school district, by which only one school should be established in a district, children of both races must attend the same school. One of the standing committees unanimously reported an article of the Constitution prohibiting the intermarriage of whites and blacks, which was defeated in deference to the colored members, many of the members of the committee who signed the report receding from their position, and voting to table it.

The signers of the protest further declare that, entertaining the views they do, they owe it, as a duty to the people, to warn them against lending themselves to the ratification of the Constitution. They know not what fate may be in store for the people, but it can scarcely be worse than that they will bring on themselves by aiding the carrying of the Constitution into effect.

Surely such a paper as this *must* have weight with all true men in the North.

THAD. STEVENS' bill to establish schools in the District of Columbia, contemplates intermixture of blacks and whites indiscriminately. The main feature of the bill, however, consists in a provision which disfranchises every man who may refuse or neglect to send his children to such amalgamation schools. Every person offering to vote must prove before the judge of election that he has sent his children to school. We wonder what will be Thad's next deviltry.

ALMOST all the journals of Virginia are expressing fears as to the ultimate action of the Constitutional Convention. The Richmond *Whig* fears that any constitution which the Convention adopts, will confer unqualified negro suffrage. However acceptable the plan might be in other respects, this feature alone will make it "Radical, hateful, horrible." The *Whig* also asserts that the white people of Virginia are resolved that they will, under no circumstances, vote for a constitution which provides for negro voting. If Congress forces it upon them, they will have to submit, but will never consent, as they know that "negro suffrage means negro ascendency, and negro ascendency means inefaceable degradation and irretrievable ruin."

THE military satraples of the South are a vortex in which millions of the money wrung from the toil and sweat of the white men of the North have already disappeared. And the end is not yet. There is a large deficiency reported in each of them for the past few months, and no provision has yet been made for future expenses. How long do the people of the North intend to submit to such a state of affairs? There can be no end of it until there is an end of negro rule, and that can only come with the utter defeat of the Republican party.

THERE seems to be but little doubt that the Democrats will carry New Hampshire at the coming election, which takes place in March. All the municipal elections recently held in the principal cities and towns of that State have resulted in Democratic victories. In Portsmouth first, then in Dover, and now in Manchester the Radicals have been utterly routed. They carried all those places last year by large majorities. We have little doubt that the coming State election will result in an old fashioned Democratic triumph in the Granite State.

IT is said that General John M. Palmer, the most prominent Republican candidate for Governor of Illinios, has announced his intention of advocating negro suffrage from the stump during the canvass. He might as well do so, for with negro rule in all the South the Republican party cannot dodge the question; and it would be easy to show that negro suffrage could not be half as injurious in the North as it is in the South.

MESSRS. Koontz, Lawrence, Miller, Morehead, and Taylor, Radical members of Congress from this State, voted against impeachment. Messrs. Broomall, Covode, Kelley, Mercur, Myers, O'Neill, Stevens, Williams, and Wilson, Radical members from this State, voted for impeachment. Here are "two families." Can the Radicals of Pennsylvania support both of them?

A MAN named Pepys, and his wife and two children were murdered at their home, near Alton, Illinois, on Sunday last. The murder was committed with an axe, and a negro named Joseph Marshall is under arrest as the guilty party.

A Row About the Offices in the Senate—Cameron After Forney.

The Washington correspondent of the New York *Herald* says:

I have telegraphed you two or three bits of information relative to a nice little rumpus that is brewing in the Senate about the division of the loaves and fishes coming under the control of the Senatorial dignitaries. There seems to be very little excitement on the subject, but if people who profess to be initiated are to be believed there is a perfect tempest ahead—one that will blow reputations to pieces and shatter the well laid plans of the spoilsmen to atoms. According to the knowning ones, Secretary Forney and Sergeant-at-Arms Brown are destined to grief. Some of the noble Senators, it seems, have smelt out big things, and profess to believe that the administrations of their Secretary and Sergeant-at-Arms have not been in every particular what they should have been. Other Senators declare that this loud complaint is without foundation, and that the opposition to Forney and Brown is caused entirely by parties who seek to supplant this irreproachable duumvirate in the enjoyment of the loaves and fishes. The result is that the noble Senators have lost their usual quietude of manner, and have become rather warm over the claims and charges. That this should be the case is not so very surprising, after all, when it is considered that the deposition or retention in office of Brown and Forney involves the control of a large amount of patronage, about which Senators, like ordinary mortals, seem not to be indifferent. Forney appears to have few friends, indeed, among the Senators. The complaint is that he does not attend to his duties; that he has not been liberal in his management of the patronage, having given most of the best positions to people from his own State. Senator Cameron is bitter in his pursuit of the Secretary, protesting that he will drive him from the Capitol if it takes six years to do it. Cameron has old an grudge, and keeps such things fresh in memory. Brown has more influence at his back than Forney, and will make a better fight for his head. He hails from Illinois, and has Trumbull as his champion. Sumner, Anthony, and Fessenden are ranged against Trumbull in this fight, and support Gen. Burbridge, of Kentucky, for the position of Sergeant-at-Arms. The post is said to be a "fat" one. The salary is small, only twenty-five hundred dollars per annum, but in the hands of a cute manager it can be increased and multiplied *ad libitum*.

THE WHOLE STORY IN BRIEF.

Here it is, from a Republican paper. It is a confession to which we invite general attention, and hope our readers will not regret it. The Springfield *Republican* says:

The hope that at least one Republican State had declared for equal suffrage in the late elections we are compelled to renounce. Minnesota, which the Democrats tauntingly said voted to let the negroes vote because there are none there to vote and never will be, has rejected the equal suffrage amendment by a majority varying from one to two thousand. This is to be regretted as a virtual rejection of the first principles of Republicanism, and as increasing the difficulties of reconstruction; for say what we may of the different circumstances of the South, the people of that section cannot but feel that it is an outrage to force upon them a measure we ourselves reject, and which involves much more disagreeable consequences there than in the North. Minnesota and Kansas have increased the embarrassments and perils of the Republican party almost beyond calculation.

TOO MUCH PORK FOR A SHILLING.—The published testimony of General Grant, ex-Secretary Stanton, and ex-Attorney General Speed, before the Impeachment Committee, is very annoying to the Radical fire-eaters of the Sumner-Stevens stripe. It is extremely damaging to their efforts to make the people believe some big lies which they have been industriously circulating for the last twelve months or more. The testimony has also been a serious blow at the political aspirations of certain gentlemen, and has also hurt the Presidential prospects of Grant, Chase and Stanton. They are the men who ate the onion, and whose bad breath Stevens, Wade & Co. said came from President Johnson. Time is said to make all things even, and the Radical leaders are beginning to believe so. Rascality and hypocrisy may be successful for a season; but, sooner or later, they will be exposed to the public gaze, and their patrons brought to grief. In digging a pit for President Johnson they have fallen into it themselves, and the object of their malice may laugh to scorn all their infamous plots to displace him from the Executive chair before the expiration of his Constitutional term.

BRAGGART POPE.—Gen. William B. Franklin, one of the most gallant and accomplished heroes of the late war, expresses himself in the following manner in reference to John Pope, the Munchasen and Braggart thereof. The letter, of which this is an extract, was written to General Grant, to aid that traduced soldier, Gen Fitz John Porter, in his application for a Court Martial:

"During the trial I thought it proper to inform Porter that Generals J. F. Reynolds, George H. Thomas, and myself, would, if requested, go before the court and swear that we would not believe Pope or Roberts under oath. I had consulted General Reynolds before I made the proposition. He consented to go himself, and thought General Thomas would have no hesitation in giving such evidence. I was myself well convinced of General Thomas' opinion of Pope's veracity, from what I had often heard him say, before the war."

LIBEL.—The editor of the Lancaster *Intelligencer* has been sued for libel by the Rev'd. *W. V. Gotwald*, who at a meeting of the Teachers' Institute in Lancaster preached Radical politics. Is this the way preachers intend to revenge themselves when editors choose to "haul them over the coals" for preaching politics at places where they have no business to? We have the highest respect for a worthy, God-fearing, Christian preacher, whose delight is in the salvation of the souls of men; but we have none at all for him who can never open his mouth either in prayer or preaching without lugging in politics. It is time this system of preaching should stop, and those who persist in it cannot complain if they are dragged down into the whirlpool of party strife and compelled to take it rough and tumble with other people.—*Butler Herald.*

THE Milwaukee *Sentinel* attempts to prove that its city is "fast," and instances the fact that, on Saturday last, the wife of a German resident on Chestnut street died; she was buried at one o'clock on Sunday; at six o'clock the widower was again married, and on Wednesday morning at nine o'clock the newly made bride was a mother. We doubt if even Chicago can beat that time on despatching business.

A "Gobbulier."—It becomes our pleasant duty to acknowledge the present of a large and splendid turkey from the good wife of our friend John L. Jenkins, Esq., of Mountpleasant township. At any time acceptable, it is especially so now, with Christmas only a few days off. Mrs. Jenkins has the hearty thanks of the whole household for her kind consideration and generosity.

The Snow.—The recent snow storm seems to have been very general, the snow blocking up the railroads throughout New England, New York and the Western States. As far south as Richmond snow fell to the depth of six inches.

Court.—In the case of Hannah Bowers' Administrators against Jacob Stitzel, on trial in the Common Pleas as our last paper went to press, the jury rendered a verdict of $889 52 in favor of the plaintiffs.

It is expected that several of the leading Lecturers of the country will be secured for the course. Particulars hereafter.

Property Sales.—Jacob Bucher has sold his farm, in Straban township, to Jesse Bollinger—175 acres, at $39 per acre cash.

Rev. Dr. Schmucker has sold to John L. Burns, 19 acres of land, on Seminary ridge, for $1800.

Wm. H. Rupp has sold to James Wilson, for $965, the house and lot on York street lately purchased by the former from Jesse M. Walter.

Returned.—Israel S. Diehl, son of Peter Diehl, Esq., of New Oxford, has returned from his visit to Asia Minor, and on the 9th inst., lectured before the Association for the advancement of Science and Art, at their annual meeting, in New York, describing the countries he had visited, their inhabitants, religion and customs.

Detected.—An attempt was made one evening last week by some villain to steal a horse from the stable of Charles Diehl, in New Oxford. He had succeeded in getting a horse out of the stable, when he was observed by Mrs. Diehl, who gave an alarm, when he fled, leaving the horse in the barnyard.

"Gift Enterprise."—In the House, at Washington, yesterday week, Mr. Van Wyck, of New York, offered a resolution directing the commissioner of internal revenue to inform the House whether the directors of the enterprise professing to be for the relief of wounded soldiers, and known as the Gettysburg Gift Enterprise, had paid the revenue license for lotteries.

Mr. Van Wyck denounced the scheme as one of the most atrocious swindles of the times. The resolution was adopted.

Christmas Goods.—Our merchants and business men generally have opened stocks of goods of various kinds, suitable for Christmas presents, and from the large display, there can be no difficulty in meeting the wants of all, whether in the line of Dry-Goods, Wearing Apparel, Jewelry, Books, Confections, Toys, or what not. Examine the advertisements in the COMPILER, and you will know where to get just what you want and at reasonable prices. Most classes of goods are now selling as cheaply as before the war.

Presents.—On Wednesday morning the Students in the Preparatory Department of Pennsylvania College had a pleasant time in presenting their Instructors with testimonials of regard. Mr. Fisher, in the name of his class, presented Prof. Ehrehart, the Principal, with a beautiful copy of the Bible, while Mr. Stahl presented Mr. Parsons, 1st Assistant, with an elegant copy of Milton, and Mr. Swope presented Mr. Gilbert, 2d Assistant, with a gold Pen, Pencil and Case. The Junior class also, through Mr. Young, presented Mr. Parsons with a well-furnished rose-wood Writing Desk. The presentations were accompanied with appropriate speeches, which were responded to by the recipients, to whom the whole affair was a pleasant surprise.

New Buildings.—A. R. Feistel is putting up another dwelling house on Breckenridge street.

Jacob Bollinger, Jr., has in course of erection a dwelling on the same street.

John Tzay has nearly completed a dwelling in West Middle street.

John Tawney has bought a lot from Frederick Ridgly, in the same street, with a view to building a house thereon before spring.

Mrs. Maria Wisotzkey is about having a dwelling put up, on West High street, opposite the Fair Grounds.

John Rupp has contracted with Stallsmith & Son, for the erection, in the spring, of a new dwelling, on the site of his present residence, on South Baltimore street. It will be a two-story frame, ornamental and in cottage style, and will be quite an improvement to that portion of the town.

The Building Committee has contracted with William C. Stallsmith & Son, for the erection of two new professors' dwellings, on the College campus. They are to be built in cottage style, after plan prepared by Mr. Simons, of Harrisburg.

DR. SHUETLEFF, the Democratic mayor elect of Boston, is a physician of good reputation, and distinguished as an antiquarian and historical student.

Teachers' Institute.—We have been furnished with a detailed and carefully prepared report of the proceedings of the Teachers' Institute, held in New Oxford, a few weeks ago, which we should have cheerfully published, had it reached us in due time. The material facts, however, have already appeared in the condensed reports published last week and the week before. We annex the Resolutions adopted by the Institute, viz:

1. That time has tested and proven the utility of our County Institute; and that we consider it to be an indispensable aid in securing the efficient working of our system of popular education.

2. That it is the duty of all teachers to avail themselves of the opportunity afforded by the annual meeting of teachers in convention; and the few who, without good cause, have failed to do so, have been faithless to the cause in which we are engaged.

3. That we tender our thanks to the directors who have granted the time to attend this convention; and sincerely regret that some have been so blinded to the best interest of the community as not to grant the time.

4. That we recognize in Mr. Sheely, our efficient and worthy County Superintendent, an earnest co-laborer in the cause of education; and that the thanks of the Teachers of Adams county, and friends of education generally, are due him for the faithful manner in which he has discharged his laborious duties.

5. That we recommend to the Teachers and Directors of Adams county, Payson, Denton and Scribner's System of Penmanship.

6 That irregular attendance of pupils is one of the greatest evils in our schools.

7. That we earnestly call upon all Teachers, and friends of education in Adams county, to unite with us in our efforts to elevate the standard of teaching, and condition of our Common Schools.

A number of Resolutions of thanks were adopted—to the Directors of Oxford district for the use of their School building; to the Trustees of the Lutheran church for the use of the church; to the members of the Choir for music; to the citizens of New Oxford for their kindness and hospitality; to the landlords of the "Washington" and "Franklin Hotels," for entertaining teachers at reduced rates; to the Gettysburg and Littlestown Railroads for reduced fare; to the gentlemen who delivered Addresses; and to the officers of the Institute for the faithful discharge of duty.

The following Districts granted to their Teachers permission to attend the sessions of the Institute, which ran through five days; viz:—Gettysburg, Hampton, Liberty, Freedom, Oxford, Berwick Borough, Hamilton, Conowago, Reading, Straban, Mountjoy, and Hamiltonban; Menallen and Berwick tp. each granted three days; Mountpleasant two days; Highland, one-half the time. The following Districts declined to grant the time, viz:—Cumberland, Franklin, Latimore, Huntington, Tryone, Union, Germany and Littlestown.

The importance of these annual meetings of Teachers, as efficient aids in the development and improvement of the Common School system, is beginning to be generally accepted. The law recognizes them, and we hope to see the time when Directors will not only grant the time, but require their Teachers to attend these Institutes, and when every Teacher will regard it his duty to be present.—*Star.*

Legacies and Distributive Shares.—The attention of Executors and Administrators is particularly directed to the following clause of the Internal Revenue Law:—"And every administrator, executor, or trustee, having in charge or trust any legacy, or distributive share, as aforesaid, shall give notice thereof in writing to the Assessor of the district where the deceased grantor or bargainor last resided, within thirty days after he shall have taken charge of such trust. And in case of wilful neglect, refusal, or false statement by such executor, administrator, or trustee, as aforesaid, he shall be liable to a penalty of not exceeding one thousand dollars, to be recovered with costs of suit." A strict compliance with the above clause of the law will save executors and administrators time and trouble.

Taken the Lead Again!—Row & Woods have again taken the lead in low prices. They are selling Best Calico at 12½ cents per yard—other goods at like reduced rates. The place to buy *cheap* Goods is Row & Woods' Store, and no mistake about it. It

Holiday Presents.—Do you want to select something acceptable as a Christmas Gift? Soper & McCartney have just the articles you want—Watches, Clocks, Gold Rings, Breast-Pins, Bracelets, Watch Chains, Ear Rings, and Jewelry of all kinds, specially adapted for Holiday Presents. Stoves!—Stoves!—at S. G. Cook's, York st., Gettysburg. Particular attention is called to Small & Smyser's Pennsylvania Cook, No. 8. The fire place of this stove takes in a piece of wood two feet long, which makes it the cheapest stove in the market; its baking and heating qualities have been thoroughly tested, and never failed to give satisfaction. He has the exclusive sale in Gettysburg of this stove, and also of the Empire and Oriental self-feeding Base Burners, two of the best stoves ever invented. They can be seen in operation at the Keystone House and Globe Inn. tf

Decided.—There seems to be no question but what Coe's Balsam is the greatest and best Cough preparation extant. In cases of Croup it is unfailing. Take little and often, and the result is sure. It should find a home in every household. The proprietors assure us it needs but one trial to establish its merits.

An Eminent Divine says, "I have been using the Peruvian Syrup. It gives me new vigor, buoyancy of spirits, elasticity of muscle." J. P. Dinsmore, 36 Dey Street, New York, will send free, a pamphlet of 32 pages, containing a full account of this remarkable medicine, to any one sending him his or her address.

Native Wines.—Some time since we stopped at Passaic, and were really surprised to see the old store house there all filled with wine on storage.

The amount of Mr. Speer's stock of Port Grape Wine on hand is almost fabulous. Four storehouses are filled and tiers upon tiers of casks up and down stairs, and in some cases huge vats, occupy every available spot, leaving only little alley ways through which to walk. It is an illimitable quantity of wine. None is sold until it has acquired the age of four years, and the buildings, 1,2,3 and 4, are of the first, second, third and fourth years vintage. Our druggists have some of the oldest of the above wine direct from Mr. Speer.—*Paterson Jam.*

A DISGUSTING SCENE.

Mr. Editor:—Being in town on Saturday last, I concluded to wait for the evening mail, which came in rather later that usual. Soon after the train came in I walked up to the post-office, where, while waiting for the mail to be distributed, I witnessed a most disgraceful scene.

In front of the post-office were a couple of big buck negroes, who had taken possession of the steps, whilst a score or so of white men and boys, and a few ladies, were compelled to stand on the sidewalks *in the snow*. Not only this, but the impudent, insolent "smokes" carried on a low, vulgar conversation in a very loud and boisterous manner, to the infinite disgust and annoyance of the "white trash" standing shivering in the cold. Time after time they struck violently against the door, threatening to burst it open, and all the while cursing and swearing at "such a post-office and such a postmaster." It was indeed shocking to hear the oaths which these ignorant, degraded wretches uttered against our gentlemanly postmaster and his obliging clerk. As soon as the door opened these "American citizens of African descent" rushed in and called for "dare mail" before any "white trash" could get near. The "culled persuasion" are learning very rapidly under the teachings of Phillips, Sumner and Stevens, but if they imagine they have exclusive right to the U. S. post-office, and can insult and annoy respectable white people with impunity, they must be taught to the contrary at whatever cost. I do not know, and have no desire to know the names of the sables in question. These are plain, unvarnished facts and can be abundantly vouched for.

525 MILES.

OF THE

UNION

PACIFIC RAILROAD.

Running West from Omaha

ACROSS THE CONTINENT.

ARE NOW COMPLETED.

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six-Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not the full extent of its claim in services. These Bonds are issued as each twenty-mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred *Million Dollars*, of which over five millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at 90 CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

FRIDAY AFTERNOON, DEC. 20, 1867.

"THE OLD CAPITOL PRISON."

We wish somebody would give the public an impartial, accurate account of what took place during the war in the Old Capitol Prison. Think of American citizens being snatched up and held in confinement one, two, and even three months, denied all communication with their friends, and charged extortionate prices for what they desired. And when the facts are investigated, no substantial charges are made out. Think of prisoners not being permitted to hold converse with their counsel unless in the presence of a detective. Think of men being persecuted by their jailor until in sheer desperation they commit suicide. We believe if the people understood a tithe of the secrets of the Old Capitol Prison, we would have much less said about the enormities of Libby Prison.—*Washington Express.*

THE Washington correspondent of the York *Gazette* pays the following well-deserved compliment to a faithful public servant:

In conversation the other day with several prominent Democrats from Cumberland county, who were on a visit here, besides letters from others, I am pleased to learn that our member, Hon. A. J. Glossbrenner, whose unremitting attentions to his constituency, and his large experience and acknowledged abilities, together with his influence in all *Democratic and Conservative quarters* here, is now conceded to be the only available and most useful member old mother Cumberland could have. As for her daughter Perry and old York, we may say his nomination is a foregone conclusion, and with his growing popularity in Cumberland Valley, I would not be surprised if he were returned here without opposition in our party.

SAYS a Radical paper—"Steadily, surely, grandly and beautifully, the loyal men of the South are taking possession of the reins of Government." It would be much more proportionate to their capacity, however, if Sambo, Cuffee, Pomp, and the rest of the "loyal men," would "steadily, surely, grandly and beautifully" take possession of the reins of mule teams.

SENATOR SUMNER calls the President's message a libel, and Wilson says it is an assault upon Congress! But the people think it a sensible, practical document, and its effects can be seen in the altered tone of Congress.

ONE of the Congressional lobbyists in Washington is described as one of the loveliest women on earth, and is said to "dress like an empress."

FRIDAY AFTERNOON, DEC. 20, 1867.

THE LAST HOG OF AUTUMN.

'Tis the last hog of Autumn,
Left squealing alone;
All his grunting companions
Are butchered and gone;
No pig of his kindred,
No porker is nigh,
To help empty the swill-trough,
Or share in his sty.

I'll not leave thee, thou lone one,
To starve in the pen;
Since thy mates are all pork now,
Die shalt thou with them.
Then thus do I offer
The blade to thy throat,
And thou shalt be pickeled
Like every dead shoat.

And may I be present
When thou art the treat;
For ham, souse or sausage,
Who would not eat?
When people are hungry,
And beef can't be had,
For calming the appetite
Pork is not bad!

SUPER-PHOSPHATE OF LIME.

Bones are among the most potent fertilisers, and should be carefully saved on every farm, and in every city, and village, for the enriching of the lands of the country. Their composition chemically is as follows: In one hundred parts there are of earthy matter sixty-six, of organic matter thirty-four. The earthy part consists of phosphate of lime, and the animal or organic is a substance called *gelatine* or glue. Both of these are fine manures, indeed the very richest. The bone is unavailable, however, until it is decomposed, and but few know how to effect this. When ground to a powder the combined action of air, and moisture, and earth will effect this object—but the grinding is a difficult matter, and involves considerable expense to prepare for it; undoubtedly the best and cheapest form of bone fertilizer is what is termed *superphosphate* of lime, (sulphuric acid and raw bone). This substance is manufactured and sold widely, and, where you can rely upon its purity, we most heartily recommend it to our readers.

We feel like giving our readers a simple recipe, and if they choose to do so they can manufacture it for themselves. Take 100 pounds of bones, break them as fine as you can with a hammer, and put them into a two bushel tub; to fifty pounds sulphuric acid, add twice its bulk in water, pour one-third of this over the bones, and let it stand twenty-four hours, stirring occasionally; add one-third more of the diluted acid, and let it stand another day and night, and on the third day add the remainder of the acid, stirring occasionally until the bones have dissolved, which will not usually require more than another day. Mix this with any good absorbing compost or finely pulverized manure sufficient to make it up and hold it in a solid form. The water will evaporate, and leave the mass dry and crumbly. You now have some five hundred pounds of the most powerful manure known. The cost will be for bones say one dollar, sulphuric acid from three to four dollars, and your trouble, which we are not prepared to estimate accurately. Those unacquainted with chemistry may fear that the acid will destroy the properties of the bones. We assure them, however, that it simply dissolves the lime and leaves the cartilage or glue unhurt, and in the same form as before, until it is stirred up. Remove a bone from the acid after a day or two, and it will be of the same size and form, but soft and flexible, a mass of jelly.—*N. Western Farmer.*

HORSES THAT OVERREACH.

We commend the following to horse-shoers generally. It is from the *Prairie Farmer*, (Chicago,) and is worthy the attention of every blacksmith who attempts to shoe horses. The reason given for the method of shoeing recommended to prevent horses from overreaching, we consider to be scientifically correct. But we shall allow Mr. Kimble to be heard in his own words. He says: "I believe there are but few blacksmiths that know how to shoe horses that overreach, and some that do not seem willing to learn. Others think again that there is no better remedy than making the shoes shorter, and placing the forward one on the toe, and the hinder one on the heel of the horse. They need to understand that there is a better way, and horse-owners, should make note of it. A Western correspondent gives the following rule, which I think is a very good one:"—"Make the forward shoe long, and the toe-calks short and standing a little under, and set them as far back as convenient, in order to let the feet roll over as soon as possible, to get out of the way. And in setting the shoes on the hind feet, reverse the order, to keep them back to give time for the forward feet to get out of the way. Make the toe-calks high, and the half-calks low, to keep the feet back, then he will travel like other horses. This may be remedied in part in the mode of paring the hoof. This is essential in all cases, and where too many horses have been cripples. Great pains should be taken at all times in shoeing horses, and I believe not too many of our blacksmiths fully understand making the shoe and paring the hoof."

HARRISON POTATOES.—The Oxford *Press* says, Henry Carter, of Fulton twp., Lancaster county, planted two and a half bushels of Harrison potatoes last spring and had therefrom a yield of one hundred and seventeen bushels. They were all large and sound. This is the most prolific yield we ever heard of.

A CORRESPONDENT of the Maine Farmer says: "Many a housewife may be glad to know that when she wishes to keep a piece of fresh meat a few days, that it can be successfully done by placing it in a dish and covering it with milk. Sour milk or buttermilk will do as well. I have practiced the plan for years."

A LEGAL CURIOSITY.—A deed has lately been executed in which the Pennsylvania Railroad company conveys to the Pennsylvania Canal company all the line of canals from Columbia to Hollidaysburg. The consideration money is $2,650,000,00, and the revenue stamps affixed to it $750. This deed will have to be recorded in the the counties of Lancaster, Dauphin, Perry, Juniata, Mifflin, Huntingdon and Blair. This will prove a "fat job" for the Recorders.

QUESTION.—If a man sells a watch for fifty dollars, buys it back for forty dollars, then sells it for forty-five dollars, how much does he make by the transaction? It looks as though he made fifteen dollars, but he didn't.

AN old toper was heard the other day to advise a young man to get married, "because then, my boy, you'll have somebody to pull off your boots when you go home drunk."

WHAT is the difference between truth and eggs? "Truth crushed to earth will rise again," but eggs won't.

THERE have been several snow storms, with huge drifts, in Massachusetts, during the past week.

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They sew noiseless, directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

KISSINGER & SHIREMAN,

NO. 2 WEST MARKET STREET, *YORK, PA.,*

AGENTS AND DEALERS IN PIANOS & CABINET ORGANS, MELODEONS, AND ALL KINDS OF MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Reiker & Schmidt, Chickering & Son, Bradbury, Knabe & Son, Gale & Son,

ESTEY'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation, and round Tone, the essential feature in instruments of this class. We invite the severest scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention so acknowledged by all leading artists will be found only in the Organs of this manufactory. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and round that it never fails to enchain the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent pedals, Harmonic attachment and VOX HUMANA TREMOLO, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed to churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.
